All E-Verify Cases Must Reach A Final Case Result and Be Closed

E-Verify will transfer all case data to a new interface later this month. To assist in the transition, all open cases must reach a final case result and be closed.

Open cases that have not been accessed for more than 365 days will be closed by [E-Verify](#), but will remain accessible to employers as completed or historical cases. Cases that have received a final result (Employment Authorized, Final Non-Confirmation) will also be closed but will remain accessible to employers as completed or historical cases. Users are encouraged to complete and close their cases prior to the deployment date.

Open cases that are not completed, but were accessed within the last 365 days will remain open for the employer to continue processing.

For more information on how to properly close a case in E-Verify, see the pages 17-19 of the [E-Verify Quick Reference Guide for Employers \(PDF, 610 KB\)](#); [E-Verify User Manual 4.0; 4.1 Close Case; 4.2 Case Alert](#); and [4.1.1 Case Closure statements](#).
