Update: Form I-751, Petition to Remove Conditions on Residence

[Versión en español](#)

Due to a processing error on May 4, 2018, USCIS mailed a number of biometric services appointment notices with incorrect Application Support Center (ASC) locations to petitioners who filed Form I-751, Petition to Remove Conditions on Residence.

The affected notices have a date of 05/04/2018 and a case type of "[I-751 – PETITION TO REMOVE CONDITIONS ON RESIDENCE](#)." The notices tell petitioners to appear for their biometric services appointments starting the week of May 21, 2018, at ASCs located out of the normal geographic area.

On June 8, 2018, USCIS will mail new biometric services appointment notices to petitioners who received an incorrect notice and did not reschedule their appointment or did not appear as a walk-in at the closest ASC to their location.

If you received an incorrect appointment notice, you do **not** need to travel out of the normal area to attend your biometric services appointment. Instead, you have two options:

- Wait until you receive a new biometric services appointment notice with the correct ASC and new appointment date. You can confirm that we sent a new appointment notice by checking [Case Status Online](#).
- Go to the ASC closest to you as a walk-in. However, you may experience a long wait time and may not be seen that day. You can find the closest ASC by using the [ASC locator](#) on uscis.gov/about-us/find-uscis-office.

If you have questions regarding your biometric services appointment notice, you may connect with the USCIS Contact Center at uscis.gov/contactcenter.
