Health Care Coverage (Maps)

Tanya Broder

Jul 28, 2025 These maps show generally which states provide health coverage to immigrant children, pregnant people and undocumented people. Originally published in February 2016.

HEALTH CARE

SHARE

These maps illustrate generally which states provide health coverage to immigrant children, pregnant people, and undocumented people.

The first map highlights the states that have opted to provide federal Medicaid and/or CHIP to lawfully residing children without a waiting period, and/or to cover children regardless of their immigration status, with state funds.

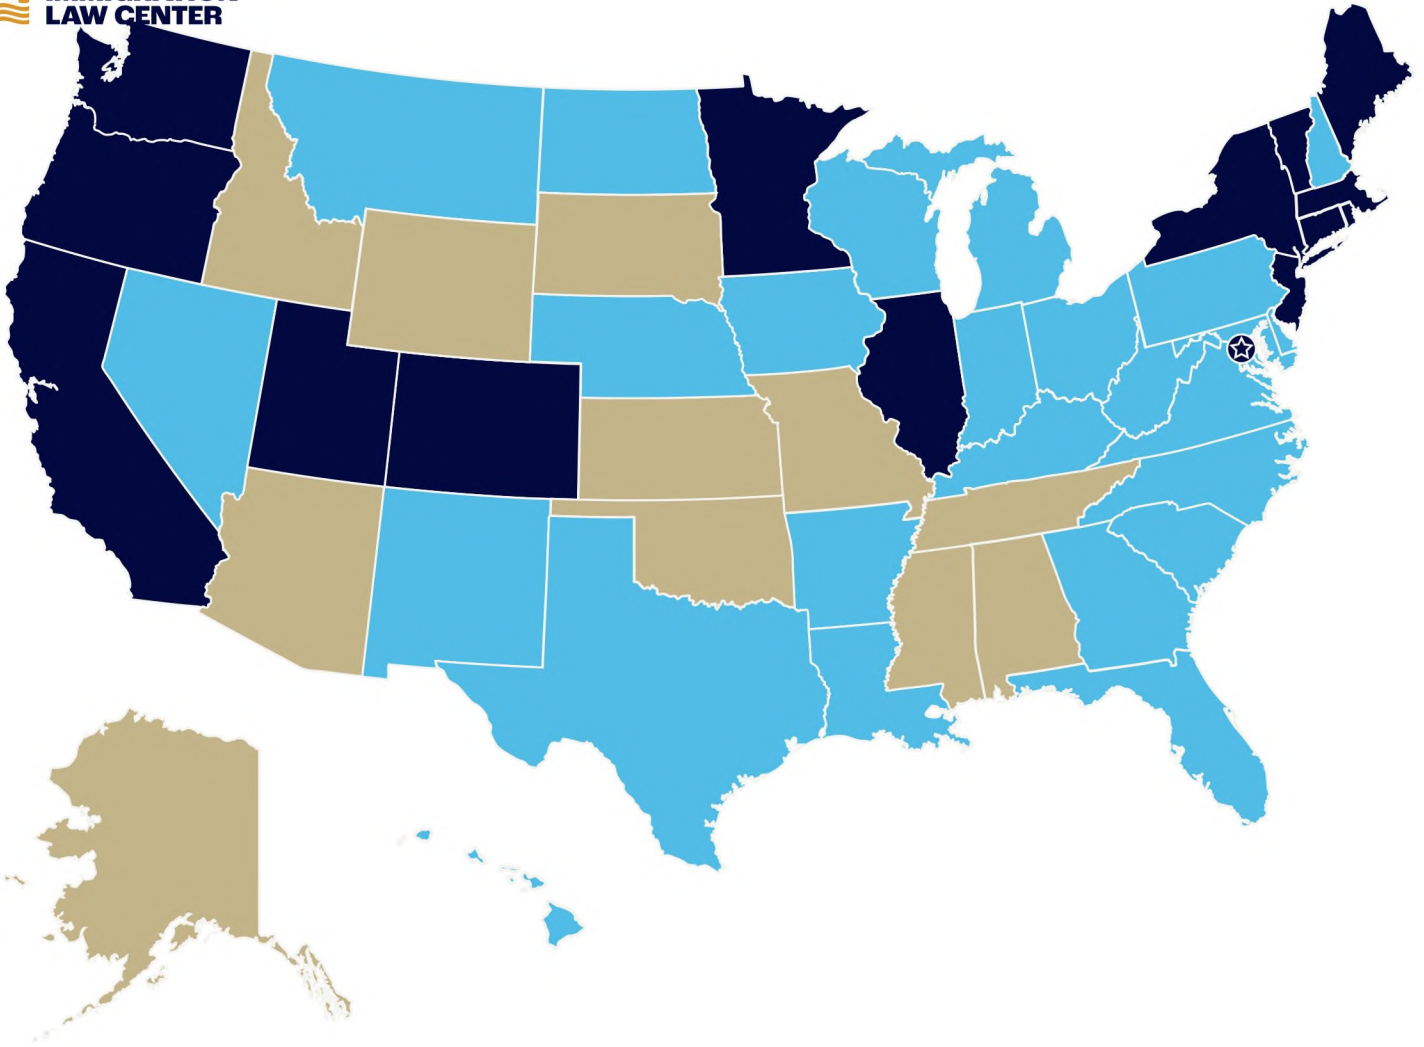

The second map shows the states that have opted to provide federal Medicaid to lawfully residing pregnant people without a waiting period, and/or to provide prenatal care regardless of the pregnant person's immigration status, either under the federal CHIP option or with state funds.

The third map indicates the states that cover or will cover undocumented adults.

More specific information about health coverage is available by visiting our resource, [Medical Assistance Programs for Immigrants in Various States](#).

Health Coverage for Immigrant Children

LAST UPDATED JULY 2025

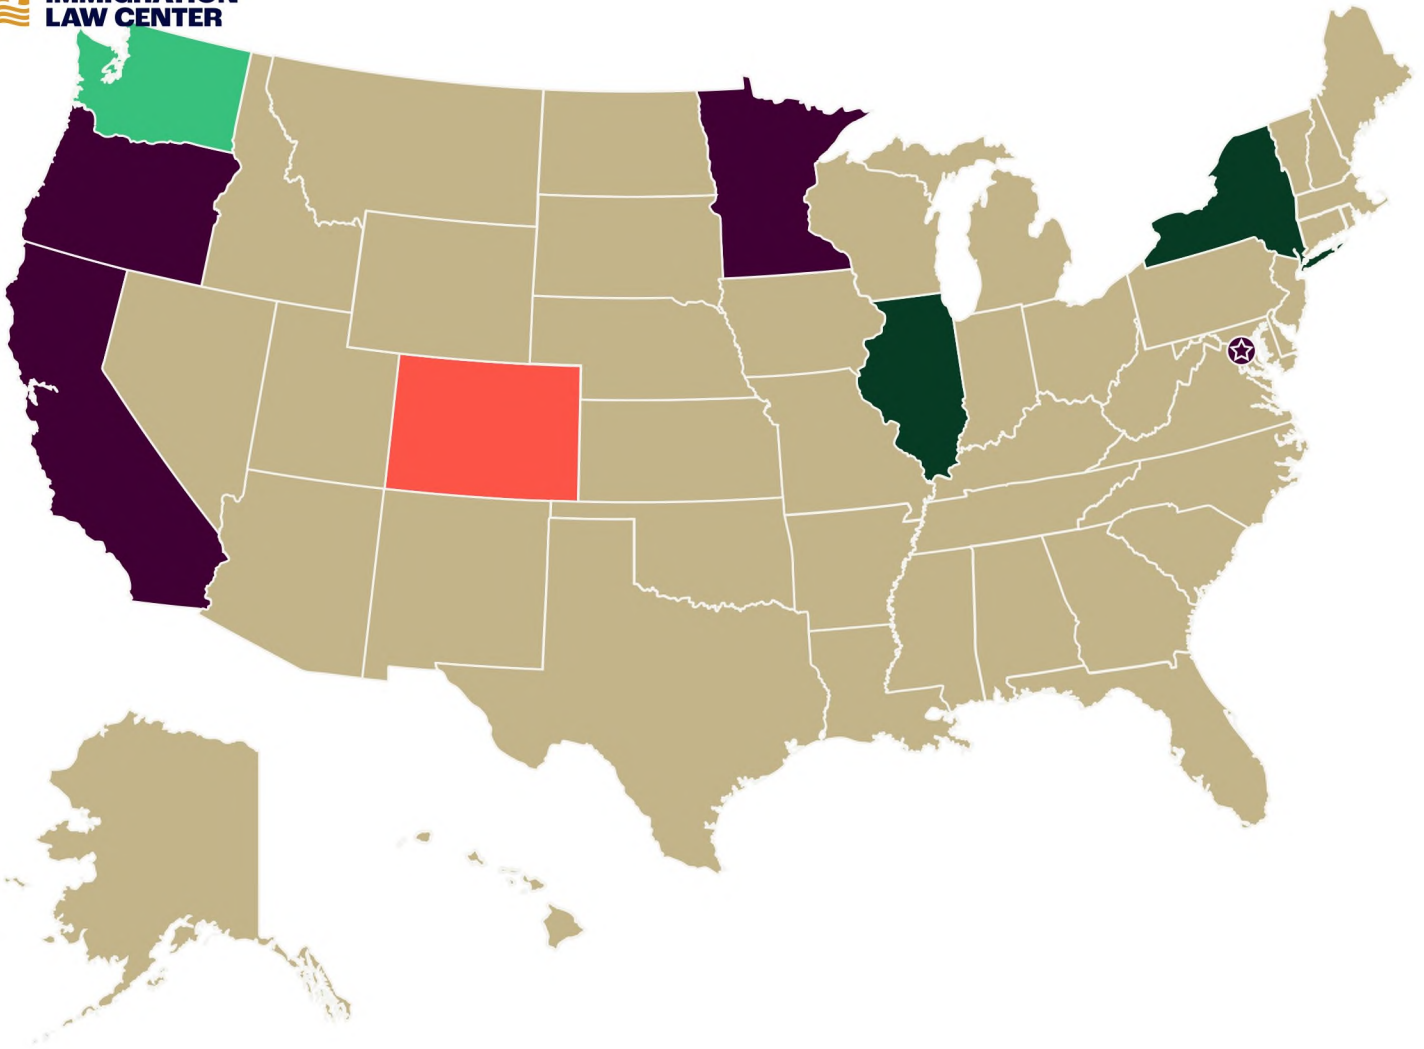

Medicaid/CHIP for lawfully residing children, regardless of date of entry

Medical coverage for children, regardless of immigration status
